

SECURE & INDEPENDENT ...every step of the way

Everyone loves the idea of walking or cycling more. Year after year we see young people in our classrooms say that if they had the choice they would love to travel independently, either on foot or by bike. And we know that this is so often the best thing for them, encouraging them to be active throughout the week into their teenage years will set them up for a healthier life as an adult.

-  Peace of mind whether your young person is walking or cycling, on journeys to school, or anywhere else
-  Let's families plan travel together whilst supporting young people to travel independently
-  Guardians can check the location of Route Guard users at any time, in real time, wherever they are

Find out more at: routeguard.co.uk

Every RouteGuard enabled mobile is connected to a mobile with RouteGuardian installed. RouteGuardian users can see the location of their young people at any time. Set up zones along roads and around destinations to create alerts so you always know that they are safe.

For added security routeguard uses a unique organisation code at sign up. Your school code is:

392-5411-BW

Oaklands Catholic School
