Science	Black pen, pencil, pencil sharpener, eraser, <b>scientific calculator</b> , ruler, protractor and pair of compasses

***It is important for students to bring the correct equipment to their exams. The school cannot guarantee that it will have enough equipment for those who fail to bring what they need. Calculator functions vary, and it is useful for students to have a calculator that they are familiar with.***

***Students may also like to bring water (no other drinks) in a clear bottle without labels and must remember their glasses if applicable. It can be useful to bring a spare pen.***
